September 15, 2015, 6:45 pm-9:00 pm

Intro to PSYCH-K:

Re-writing the Software of your Mind for Transformational Change and Healing.

Featuring: Mary Mazur, BSN, RN, HNB-BC, PSYCH-K® Facilitator, Reiki Master

- **Learn the integral** parts of the mind and spirit, your physical & non-physical parts of you, and their effect on your body and whole being.
- **Discover the way** your subconscious mind may communicate with you to help you in your healing & wellness journey.
- **Find messages** your body may be giving your whole being when it develops a health condition, dis-ease, allergy, or stressful events in your life, and unlock how simply & profoundly your system can transform to a wholeness state.

One participant will have an opportunity to experience the PSYCH-K process for his/her self-healing journey at the second half of the presentation, and the rest of the participants can see the profound ability our whole system has when it connects to our higher consciousness for self-healing using the PSYCH-K process.

*Those interested in learning more are invited to attend a **Basic PSYCH-K workshop: October 9-11, 2015** in Dearborn, MI to learn to facilitate PSYCH-K for their own wellness journey and in helping others.*
