Association**
Celebrating 30 years!

Sunday, June 5, 2016 10 AM-5 PM

2016 Vision Retreat Day

The Vision of the UHA/MHNA:

1. Increase awareness of health professionals and caregivers in the concepts and practices of health for the whole person.
2. Encourage cooperation and communication among all health professionals and caregivers by providing a support group, a networking system, and information related to integrative health care modalities.
3. Provide education and support that healthcare professionals and caregivers can utilize to promote nutritional, mechanical, emotional, and spiritual healing. (Discussed making a course of education that would promote knowledge of healing in the order of teaching nutrition, mechanical, emotional and spiritual healing).
